SECRETARY BRYAN HAS RESIGNED

Could Not Sign The Note Which Goes to Germany

TAFT SUGGESTED AS SUCCESSOR

Washington, June 8.—William Jennings Bryan, three times the democratic candidate for the presidency of the United States and author of nearly thirty peace treaties with the principal nations of the world, resigned today as Secretary of State as a dramatic sequel to his disagreement with President Wilson over the Government's policy toward Germany.

The resignation was accepted by the President. The cabinet then approved the response which had been prepared to the German reply to the Lusitania note. Acting Secretary Robert Lansing will sign the document and tomorrow it will be cabled to Berlin.

Will Support Wilson Politically

Secretary Bryan will return to private life tomorrow, when the resignation takes effect. It was learned that he intends to continue his political support of the President.

Rather than sign the document which he believed might possibly draw the United States into war, Mr. Bryan submitted his resignation in a letter declaring that "the issue involved is of such moment that to remain a member of the cabinet would be as unfair to you as it would be to the cause which is nearest my heart, namely, the prevention of war."

The president accepted the resignation in a letter of regret, tinged with deep personal feeling of affection. The letters constituting official announcement of Mr. Bryan's departure from the cabinet to private life were made public at the white house at 6 o'clock tonight.

A coalition cabinet, such as was recently formed in England, may be the result of Sec. Bryan's defection. Men most prominently mentioned in Washington to succeed Bryan are Taft and Elihu Root.

The president's closest advisers think it would have a welcome effect on public opinion abroad, as well as toward unifying the nation, to appoint Taft, who has wholeheartedly approved Wilson's foreign policy.

GUARD RECOGNIZED BY BIG COMPANY

Belknaps Takes Public-Spirited Position Regarding Soldiers of First Regiments

Much encouragement for the officers and men of the First Regiment of the Kentucky National Guard is contained in a letter forwarded by the Belknap Hardware and Manufacturing Company to Capt. Sidney Smith, Adjutant, to the effect that employees of the company who are members of the National Guard will be allowed twelve days leave of absence from their duties to attend the State Encampment of the guard without loss of pay and without curtailing their two-weeks' vacation privileges.

This is a long step in advance of the attitude of many employers toward the demands of the encampment upon the time of their employees, and it is believed that the liberal and patriotic example of the Belknap company will have a most wholesome and gratifying effect not only in Louisville, but throughout the State, with the result that the encampment will be more largely attended and more beneficial in every way than it ever has been.

The letter addressed to Captain Smith is as follows:

"Louisville, Ky., May 5, 1915.—Capt. Sidney Smith, 1st Regiment, Kentucky Infantry, Lincoln Building, City.—Dear Sir: The directors of this company have decided that the employees who are members of the State militia will be permitted to absent themselves for the purpose of attending the State encampment not to exceed twelve days, without loss of salary and without affecting in any way their two-weeks' vacation privileges.

"In other words, the effect of this ruling is that the time of employees of this company spent in the State encampment will not be treated as absence. We thought that you would be interested to know this, as we feel that such action is in the interest of the militia and the State.

Yours truly,
Belknap Hardware and Manufacturing Company,
"Per C. W. Allen, General Manager"

U. D. C. Decoration

William Ruf Might Win Battle Alone

William Ruf, a gun pointer on the battleship Texas, recently made a remarkable record off the Virginia capes. With a four-teen inch gun he made eight hits in succession upon a moving target at a range of twelve miles.

Had these hits been in action they might have won a battle. Eight fourteen-inch shells, even at so great a distance, would have wrought frightful havoc upon an enemy ship. The ship which can get the greatest number of hits at long range has a tremendous advantage.

Birthday Party

Master Wm Douglas Simon entertained a number of his little friends at a party last Thursday afternoon, hours from three to five, the event being given in honor of his sixth birthday. The young folks having assembled, several games were played. The opening of the many useful and lovely presents, received by the young host proved a very interesting feature to the little folks. The children marched in couples into the dining room to the strains of a beautiful march. The table and birthday cake were decorated with roses and ferns. A delicious course of cream and cake was served after which the little guests departed wishing that Wm Douglas had three or four birthdays a year. Those present were: Misses Mary Irene Devylder, Mary Moore Randolph Neveline Blackburn, Genevieve Wiley, Mary Frances Rolz, Blanche Orrell, Mary Delilah White, Helen Campbell, Myrabel Burt, Willie Frances Wallace, Emma Cornelia Witherspoon, Juanita Sue Cowells and Cynthia Watta, Messrs Marvin Baldwin, John Fish, Dudley Sisk, Lawrence Daves, Lawrence Lynn, James Lawrence Smith, Franklin Witherspoon, Dee Henry, Ernest Eastwood, Harry Bohan Withers Ted Watts and Wm Douglas Simon.

Progressive Leaders go to Republicans

Indianapolis, Ind., June 5 At the conclusion of a meeting of the Progressive State Central Committee here Edward O. Toner, chairman, and Paul J. Hayner, secretary, handed in their resignation and announced that henceforth they would affiliate with the Republican party. L. Ray Lenich, chairman of the Eighth District Committee, also resigned.

Ben Franklin on Public Health

Benjamin Franklin said in poor Richard's Almanac 1749, "nine men in ten are suicides." He meant that nine men out of ten hasten their own deaths through ignorance or violation of the laws of health. Good health is not ordinarily obtained by taking medicines. Nature decrees that good health shall be the result of normal living. Plenty of good food, pure water, exercise, fresh air, sleep; abstinence from vicious and intemperate habits; mental self control instead of worry; these are the foundations of good health during a long life. This is the doctrine continually talked by the State Tuberculosis Commission, and the State Board of Health, and every health officer and sanitarian.

TODD ALLOWED BAIL IN THE SUM OF \$2000

No Evidence Introduced at Examination to Prevent Court Allowing Bail

Grover Todd, one of the men charged with being accessory before the fact in the double murder of Glover Hoard and Demmett Woodruff, was allowed bail last Friday, at the conclusion of the evidence at the motion for bail before Judge Gordon, in the sum of \$2,000.

Todd was on the witness stand for some time and proved that he had been in Paducah for some time previous to the killing where he was employed in the shops of the Illinois Central railroad. He proved that he had worked every day during the week of the crime. No evidence was introduced proving that he had any connection with the murder. He stated that he had always been on friendly terms with both Hoard and Woodruff and claimed that he had never said nor believed, the two men had any connection with the murder on Carbondale. He gave bond and returned to Paducah Friday. Fox & Powell represented Todd.

Circuit court is in session at Princeton and the motion for bail for Otto Hamilton, also under indictment as an accessory, will be heard before Judge Gordon on Thursday.

Wild Cattle Aided the Italian Troops

Rome, June 4 (Via Paris, June 5).—Fifty wild cattle materially aided Italian troops in capturing a strong Austrian position on Monte Corno, according to the Corriere D'Italia. The Austrian garrison had surrounded itself with a high barbed wire entanglement, against which the Italians drove the cattle. Started by exploding bombs, the animals attacked the entanglements with hoofs and horns and in a quarter of an hour had swept away the obstacle so that the Italians were able to gain the summit easily. The charge of the cattle, for which no previous military experience had prepared them, is said to have stampeded the Austrians.

Public Health Work in Boyd County

A visiting nurse, Miss May Bogard, has been employed for 14 months at Ashland, Boyd county. During that period 26 deaths have occurred from tuberculosis. In all these cases, the patient's lot has been made easier by the ministrations of the nurse. In addition, her instruction in the care of the patient and fumigation of the home will probably prevent other members of the family from contracting the disease.

The nurse now has 45 consumptives under her supervision, two being cared for in a tent. Last month, the nurse made 170 visits to the various patients. The work is so heavy that an additional nurse will soon be employed. This is a typical story of successful visiting nurse work in a number of Kentucky cities.

STARVATION AS A PRINCIPLE

(New York World)

Discussing the question of food-stuffs, German Foreign Secretary von Jagow says, "It is not a matter of necessity, but one of principle," and, in the same breath, "there is no precedent for the siege of the civilian population of a whole nation in its own land with no possibility of escape."

Like nearly everything that emanates from the German Foreign Office nowadays, these statements are contradictory and may be challenged. If food is not a necessity but a principle, what becomes of Germany's one justification for its Apache warfare? If the British blockade of Germany is a failure, why dignify it or notice it, and, in particular, why violate all law in resisting it?

As to precedents, what did the United States blockade do to the Southern Confederacy in 1861-65? What did Germany do to Paris in 1870? What did Great Britain do to the Boer republics in 1899-1902? What has Germany itself done to Belgium? The answer to all is Starvation.

There is not a single German utterance that rings true. One day Berlin's excuse for savagery is the desperation of hunger. The next its barbarism is a matter of principle, and it has the impudence to ask the greatest of neutral nations to support such "principle."

TO THE REPUBLICAN VOTERS OF HOPKINS COUNTY

HOW WOMEN AVOID OPERATIONS

By Taking Lydia E. Pinkham's Vegetable Compound.

Cleveland, Ohio—"My left side pained me so for several years that I expected to have to undergo an operation, but the first bottle I took of Lydia E. Pinkham's Vegetable Compound relieved me of the pain in my side and I continued its use until I became regular and free from pain. I had asked several doctors if there was anything I could take to help me and they said there was nothing that they knew of. I am thankful for such a good medicine and will always give it the highest praise."

THREE QUESTIONS BEFORE THE PRESIDENT.

Washington—Three questions are now before President Wilson on which he has arrived at no decision, he told callers.
One is the calling of an extra session of Congress to deal with the fiscal deficit.
Another is the proposed re-introduction of shipping bill at the next session of Congress.
The third is the repeal of the 5% preferential clause in the Underwood-Simmons tariff law.
On all of these questions the President could give no hint of his attitude at present.

The Secret of Health is Elimination of Waste

Every business man knows how difficult it is to keep the pigeon holes and drawers of his desk free from the accumulation of useless papers. Every housewife knows how difficult it is to keep her home free from the accumulation of all manner of useless things. So it is with the body. It is difficult to keep it free from the accumulation of waste matter. Unless the waste is promptly eliminated the machinery of the body soon becomes clogged. This is the beginning of most human ills.
